大门拉手

运用人体工程学的设计原理,涉及艺术、建筑和设计领域,强调创造力的自由表达,在艺术中结晶,在人性中升华。大门拉手以创新技术,配合超加厚、高视度的不锈钢材料,精雕细琢的表面处理,触手光滑无痕,紧扣时代节奏,具有难以抗拒的非凡魅力。

Door handle

Designing based on human body's structure, refer to arts, construction art and design, pay attention to the expression of freedom, to the expression of freedom, our door handles, make use of high quality stainless steel raw material with good surface treatment, as the charming products then.

The streamlined design originated from human body curve, while the technique is the standard of BMW from Germany, presenting the beauty of artistic and industry in the clear space of business. The artistic meaning of the door handle is presented in its grand work, the design style mixes with toughness and gentleness, the structure is well polished, the outlook of meaning can visualize the inspiration space of premier quality.

流行线的设计,源自人体曲线美的灵感,工艺来自德国宝马的标准,使艺术美和工艺美显现于商业明朗的空间中。大门拉手的艺术内涵,体现在他的精雕之作。刚柔相济的设计风格,结构精良,造型极具艺术感,无论是外观,还是内涵,都能凸显品质的灵感空间。

现代商业是透明开放的世界,玻璃构造的装饰风格可以更明更直接地表达起内在的意念,大门五金系列产品,为现代商业空间的高品质要求代言,打造商业空间的高标准。

Modern business is the world of transparent and opening, the decoration style of glass structure can more clearly and directly express its internal notion, the gate representative of premier quality requirement for modern business space and forging premier quality standard.

产品安装说明 Product installation instructions

拉手系列均可安装于玻璃门、木门、有框门拉手附属配件(螺丝对轴套等)均采用不锈钢和铜制作,玻璃开孔尺寸建议钻Φ12mm-Φ15mm的孔径。

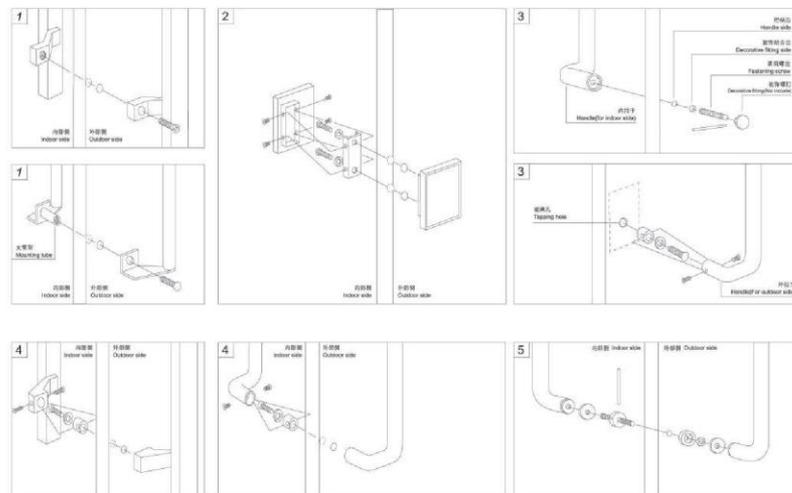

请在装修结束时再安装拉手。

每周至少将拉手清洁一次,可用牙膏擦拭污物。

Handles Series can be installed to glass doors, wooden doors, and doors with frames. Handle accessories are made of stainless steel and copper. Holes drilled in glass are recommended to be 12mm-15mm in diameter.

Please install handle when decoration work is completed.

Clean the handle at least once a week. Dirt can be cleaned with toothpaste.
